

Wells Gardner K4800

The capacitors included in this kit might be a higher voltage rating than what was originally put on the chassis. All capacitors included are polarized. See the figure below for orientation.

Main PCB Caps

Ref Des	Value	Voltage
C201	1000 uF	16V
C205	470 uF	16V
C301	330 uF	25V
C303	2.2 uF	50V
C308	3.3 uF	50V
C310	10 uF	160V
C311	10 uF	160V
C313	47 uF	160V
C315	1.0 uF	50V
C351	1.0 uF	50V
C352	47 uF	50V
C354	47 uF	50V
C366	22 uF	50V *
C506	22 uF	250V
C507	47 uF	160V
C701	1000 uF	25V
C702	10 uF	160V

This is the negative (-) lead. Notice the white strip and shorter leg

NOTE: * C366 may not be populated on your chassis. If it is missing do not install the included one.
