

Help Us Donate this Stern Guardians of the Galaxy Pinball Machine To:

The goal we have is to raise \$6500. We have a generous person matching donations up to \$3250. Anything over that amount will be directly donated to Project Pinball. Donations taken at the registers.

Who is Project Pinball and what do they do?

Headquartered in Bonita Springs, Florida, The Project Pinball Charity is a registered 501(c)(3) non-profit organization that places pinball machines in Children's Hospitals, Ronald McDonald Houses, and Assisted Living Facilities to provide recreational relief to patients, family members, and hospital staff. We have been donating to the placement of pinball machines since 2011, and have since become a nationwide organization with pinball machines in hospitals across the United States. We provide all the equipment, parts, supplies, and regular maintenance at no cost to the hospital.
