		The Hobbit™ backglass		+Smaug™ themed attract mode	
3 pop bumpers	1 pop bumper and 2 barrel jump bumpers				
3 slingshots	1 upper slingshot and 2 weapon-action slingshots				

### HIGHLIGHTS

Take on the dragon, Smaug™ the Terrible, in multiball and launch the Windlance with player-controlled kickback feature. Play dozens of modes representing unprecedented breadth. Interact with a staggering 11 up/down controllable drop targets, while the crowd-attracting 27" 1080p monitor and 4.3" book LCD provide in-depth information.

### GAME FEATURES

Smaug™ sculpture taunts you as you attempt to defeat him in pulse-pounding multiball action. Battle Warg, Spider, Orc and Goblin pop-up enemies as they emerge from under the playfield. Test your shooting skills against 11 patent-pending, up/down controllable drop targets in 3 separate banks. Shoot intersecting, steel dual ramp entrances for Gandalf™ and Bilbo Baggins™ awards. An integrated diverter transforms the ramp into the first ever inclined loop shot. The 3-way left ramp can deliver balls to the flipper inlane, Smaug™ or the Windlance outlane. The dual-purpose Windlance can function as a kickback ball save or an interactive, player-controlled skill shot. Orbit shots can be redirected into the pop bumpers or dropped into an under-playfield subway, to suddenly reappear at either the Ballin or Radagast vertical up-kicker. Also featured are 2 ultra-low friction orbit spinners, a center Thorin Oakenshield™ newton/captive ball shot, 9 individual dwarf targets, a Beorn™ right outlane target, and multiple skill shots from the ball plunger lane.

### LIGHTING

Newly redesigned, ultra-reliable LED lighting system. 40 super-smooth, cool white LEDs for general playfield illumination. 100% 16M-color, RGB LED insert lighting throughout. 8 integrated flashers for dazzling accent lighting.

### HARDWARE

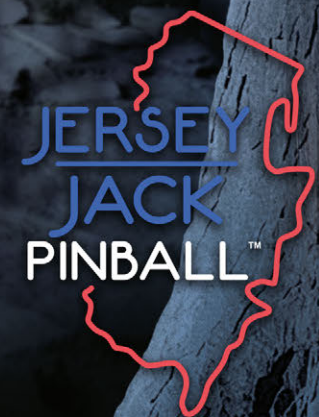

Full metal playfield arch. Traditional, lever-actuated lockdown bar. Allen wrench, Roto-Lock system for backbox. RGB-lit action button on lockdown bar. Cabinet protector brackets for legs.

### GENERAL

5 pinballs + 1 captive ball. Intuitive, easily-understood rules explained and illustrated on game monitor. "Grows-with-you" ruleset that reveals itself as you learn more about the game. Unprecedented multi-layer risk/reward scoring system.
