6 to 7 Digits!

INTRODUCING...

7volution[®]

6 to 7 Digit Conversion Revolution

7volution[®] - the new **XPin™ XP-BLY627**. This simple plug-n-play system converts any classic Bally / classic Stern from a 6 digit display system into a **7 digit display system**. And the best part is, it retains memory for high scores in all 4 windows! The new **7volution[®]** system installation takes about 15 minutes and requires no tools.

Just try to roll that machine now!

EVOLUTION X EVOLVED.[®]
