|----|--|------------------|------------|-------------|-----------|-----------|---|--------------|
| 1  | <b>PINBALL LIST - PROJECTS</b>   |                  |            |             |           |           |   |              |
| 2  | Most of these games have gd pf's (90%), gd cab's (90%), gd cn drs (90%), gd pf gls, good bk    |                  |            |             |           |           |   |              |
| 3  | doors, good lockdown bars, good legs (90%). There are 10% nice bg's, 80% fair but presentable  |                  |            |             |           |           |   |              |
| 4  | bg's, and 5% poor bg's. Warehouse had leaky roof which caused slight damage to the bottom of   |                  |            |             |           |           |   |              |
| 5  | some heads, some rusty coin doors, coin entrance housings, etc.. Some mice damage - mostly     |                  |            |             |           |           |   |              |
| 6  | paperwork. Lastly, I noticed some very small holes in the tops of some cab's and heads which   |                  |            |             |           |           |   |              |
| 7  | turns out to be old powderpost beetle damage according to a pest control guy. I swept the tops |                  |            |             |           |           |   |              |
| 8  | off and haven't observed any new sawdust/insects - he said to sweep/clean the game real good   |                  |            |             |           |           |   |              |
| 9  | and keep an eye on the game for any fine sawdust or insect (evidence)                          |                  |            |             |           |           |   |              |
